## EZ COM UNVEILS ASP BILLING FOR TELECOM PROVIDERS

West Palm Beach, Florida – April 12, 2004 – EZ COM Technologies, Inc. a leading provider of billing and OSS software for telecommunications companies, today announced the availability of EZ BILL ASP. The latest release enables CLEC'S, LD, VOIP and other service providers to take advantage of a world-class suite of OSS and billing features without having to invest substantial up-front capital.

EZ BILL ASP is a “pay as you grow” option with minimal Start-Up cost. “Our solution is ideal for a company that wants to focus their efforts on selling and servicing their products and not have to worry about software and hardware for billing,” said Bill Folchetti, president and CEO of EZ COM.

### About EZ COM

EZ COM is a leading provider of billing and OSS software solutions for the telecommunications industry. EZ COM's software suite consists of CDR processing, Rating, Full A/R billing, and Electronic Bill Presentation and Payment for the customer.
