FIDELITY ACCESS NETWORKS IMPLEMENTS EZ COM'S EZ BILL ASP

West Palm Beach, Florida (April 12, 2004) – EZ COM Technologies, Inc. a leading provider of Billing and OSS Software for telecommunications companies, announces that Ohio based service provider Fidelity Access Networks has implemented EZ BILL ASP to manage its entry into VOIP. Fidelity Access Networks SONET based OC48 network covers the state of Ohio with access points in every major city.

Fidelity Access Networks selected EZ COM ASP because it provided a complete solution for the current operations and the foundation for the future plans of Fidelity.

“EZ COM ASP brings immediate benefit to our operation, we can continue to sell, service and grow our business without worrying whether we can bill it, we know EZ COM will be there as our business model changes” stated Robert Marks, President of Fidelity Access Networks.

“We are pleased to be working with Fidelity Access Networks,” said Bill Folchetti, President and CEO of EZ COM Technologies, “They are a great example of how quick and easy a company can implement and take advantage of EZ COM ASP”.

About Fidelity Access Networks

Fidelity Access Networks is a leading provider of IP services. They offer high-speed, point-to-point (VPN) data transport and Internet access services to businesses throughout the state of Ohio over their SONET-grade IP network.
