EZ COM ANNOUNCES NEW PRODUCTS FOR TELECOM PROVIDERS

West Palm Beach, Florida – September 20th, 2004 – EZ COM Technologies, Inc. a leading provider of billing and OSS software for telecommunications companies, today announced the availability of EZ BILL IN-HOUSE. The latest offering enables service providers to take advantage of a world-class suite of OSS and billing features and run it all on a small, inexpensive in-house server.

EZ BILL IN-HOUSE is a cost effective solution that runs on a standard, windows based server. “This solution is ideal for companies that wants everything in-house” said Bill Folchetti, president and CEO of EZ COM. “We will continue to offer solutions in our ASP model also”, stated Mr. Folchetti.

About EZ COM

EZ COM is a leading provider of billing and OSS software solutions for the telecommunications industry. EZ COM’s software suite consists of CDR processing, Rating, Full A/R billing, and Electronic Bill Presentation and Payment for the customer.
